FOR IMMEDIATE RELEASE

June 19, 2006

www.Cincinnati.MD awards \$1000 prize to winner for providing patient feedback on a recent doctor visit.

www.Cincinnati.MD has awarded Anderson Township resident Lisa Haynes-Henry with \$1000 for providing feedback on her doctor on the website dedicated to improving the quality of health care in Greater Cincinnati. “We want to encourage everyone to provide feedback on their doctors in Cincinnati. . . The more feedback provided, the more free information available to help consumers make better healthcare decisions and receive better quality of care,” said Joe Benza, Jr. CEO of www.Cincinnati.MD.

“Leaving feedback at www.Cincinnati.MD was easy. After visiting my doctor for my annual check-up, I learned about www.Cincinnati.MD and the feedback system. Because the visit exceeded my expectations, I enjoyed leaving positive feedback for both him and prospective patients to help them understand why I go to this doctor. I wish www.Cincinnati.MD was available when we moved to Cincinnati nine years ago. What an excellent tool for finding a new doctor or even learning about a specialist to whom you’ve been referred,” said Lisa Haynes-Henry, the recipient of the \$1000 award.

www.Cincinnati.MD will continue to offer this incentive program for patient feedback. Check website for additional details on how to participate in the \$1000 award.

www.Cincinnati.MD is the only local website offering consumers a free, health care resource that provides comprehensive information, including ratings and word of mouth feedback, on over 6,900 medical professionals in Greater Cincinnati which aids patients in search of a great doctor. The site also provides a medium for patients and physicians to better communicate to help improve the quality of care delivered and reduce risk. There is no .com in www.Cincinnati.MD only health care. www.Cincinnati.MD is owned by Directories.MD.
